debunking in french below, and in english here.

1: LeSoleil/Jean-François Cliche+Msn/Dan Satherley=Bill Gates=FAKE NEWS to take the shot.

date:

when published first in hebrew here

review in French to francesoir.fr who translated it in french here

still reported in russian here in english in Arutz 7 here and in the U.S here

several other language including greek here

have been debunked since it is based on real data that have been exposed but since its Israeli ministry of health and the Pfizer/Moderna coalition keep trying to deceive the "scientific" article (like the new england journal of medicine)that intentionally hides the fact that the illness comes two weeks after the 2nd shot and hide the most important data that is the increase in deaths among the vaccinated people from covid and other adverse effects after the shot that Dr Ran Balicer the corresponding author of the NEJM publication, works for the ministry of health as head of the Klalit research institute and received grants from Pfizer as well as 7 other co-authors of the publication.. see here

If you read the NEJM study please read our article, their data validate our analysis and our analysis shows the ease of Covid19 after first shot, here:

This is in the NEJM scientific publication on the efficiency of Pfizer's vaccine

The screenshot shows a form with a blue header bar containing the word "Statement". Below the header, there is a text box with the instruction: "The system will automatically generate a disclosure statement, which will appear in the box below." Underneath this instruction is a large, empty white rectangular area intended for the generated statement.

The vaccination data in Israel reveals a frightening picture

An article promoting COVID-19 vaccination enable to uncover all vaccination data and the current situation

21 Ynet (the most known Israeli News website) published a confused and misleadingly titled "Vaccination efficiency data in Israel, and its rapid effects on the young".

These data explain why during the massive vaccination project initiated mid-December, during a confinement, daily new confirmed COVID-19 cases failed to decrease as expected during confinements, and, more importantly, why numbers of serious, critical and death cases increased during that period that covered at least one month. From mid-December to mid-January (2021), 2337 among all Israeli 5351 official COVID-deaths occurred. Our analyses show that the magnitude increases in deaths rates during the 5-week long vaccination process, especially among the unvaccinated and those after completing the vaccination process. Presumably, the death rates were higher before vaccination, and those infected shortly after the 1st dose, tend to have more severe symptoms than those unvaccinated.

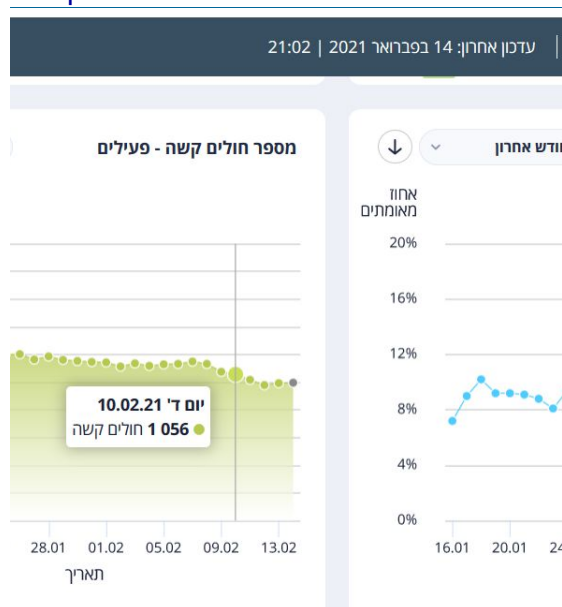

The article is organised in an exciting way and uses data provided in an erroneous way by the Ministry of Health. It is unclear whether this was intentional to prove the vaccine's efficiency or if it was done accidentally because the provided data were misunderstood. Note that in Israel, all deaths are reported by Pfizer.

An important example from the article, in relation to the table provided by the Ministry of Health, is the text "However, 546 among the dead were such that were not at all vaccinated

ination dose within two weeks before their death" differs from the table. This is because all data presented in the table and provided below describe only those who got at least the first vaccination dose. This is clear from examining the total number of COVID patients who got the first or the second vaccine dose. 660 deaths, 546 got only the first dose. The article, rather than indicating the vaccine efficiency, indicates the vaccine's adverse

Category	Low	Mean	Serious	Critical	Died	Total

	64	37	123	31	90	2696
	24	11	57	13	51	1199
	32	25	56	17	35	1202
	8	1	10	1	4	295
	<b>138</b>	<b>92</b>	<b>166</b>	<b>37</b>	<b>24</b>	<b>28475</b>
	<b>125</b>	<b>87</b>	<b>153</b>	<b>34</b>	<b>22</b>	<b>26347</b>
	96	66	124	29	17	19793
	29	21	29	5	5	6552
						2
	13	5	13	3	2	2128
	8		4	1	2	1182
	4	4	8	2		779
	1	1	1			167
	<b>461</b>	<b>406</b>	<b>1031</b>	<b>220</b>	<b>660</b>	<b>43871</b>

We need first to understand that the provided table describes the state of those who got the first or the second vaccine dose at given dates, as started in the article from the data that among 856 patients above 60 years in serious state at the time..." we assume that the article published February 11 reflects the situation on the previous day, hence February 10 2021, or February 11 2021. The number of serious active cases was 1056 according to the control panel of the Ministry of Health, see photo below.

The chart shows that most serious hospitalized cases on February 10 or at a near date were those who got the first dose or up to two weeks after the second dose. See the table of the article showing 1031 serious and 220 critical cases at the time the table was done. The article in Hebrew from February 1st 2021 "Can one show that the vaccine from Israel is a major cause for high death rates in Israel and the world?".

It is the last surprise we get from examining the data from the Ministry of Health. The number of people with the first vaccine dose on January 19 2021 from that on

During these 21 days, 1331881 Israeli citizens got the first dose. The table along these died, hence 0.042% and that 39047 among them became a hence 2.9 %.

we focus on data specific to two weeks after the 2nd vaccination according to the

on February 10 2021 909102 Israeli citizens got the 2nd vaccine dose. Among the table, 92 died, 0.01%.

5 weeks since the first dose at least 0.05% of first dose recipients died. This mainly to a relatively young population whose vaccination started on January 19, which most vaccinated were below 65.

we the death rate of those above 65 which were mostly vaccinated before that is reported by the USA-based VAERS,

we article in english, that the ratio of deaths by those above 65 vs those below 65 (35). Hence the death rate of those above 65 between the first and the second should be until January 19 0.042 (the death rate of those below 65) multiplied by .186%, which is close to the 0.2% reported by the Ministry of Health on January

on death has been mysteriously modified later on by the Ministry of Health and 005 without any explanation, see article in hebrew. Above considerations show that data provided first were correct, the updated death rate data might have been at lower death rates among the elderly.

not end here.

COVID-19 deaths among the vaccinated since the start of the vaccination action are increased death rates from COVID-19 observed since December 2020.

we calculate the products of the number of vaccinated people above age 65 by number of vaccinated people below 65 by 0.04. This shows that most COVID-19 deaths are for vaccinated people, as shows the table provided by the Ministry of Health of February.

vaccination action from mid-December until mid-February, 2337 among all 5351 reported for Israel occurred, 43.7%. Among these, since January 19, 1271 were reported for Israel. The table provided by the Ministry of Health on February shows COVID-19 deaths among the vaccinated, 51.9% of the deaths for that period. Only 1271 among 8 million (about 1 in 8, 12.5%), were vaccinated during that period.

vaccination promotes deaths because 51.9% of deaths during that period are for the vaccinated in that period. In addition the serious and critical cases during that period is more serious cases, the adverse effect of the vaccination process is most likely worse than from the data at hand.

wees. The deaths among those vaccinated should be added to the numerous AVC deaths reported just after vaccination that are not included among COVID-19 deaths.

we the deaths among those vaccinated, whose numbers remain unknown and will be found in the coming days.

we note that vaccinations caused more deaths than the coronavirus would have caused during that period.

we vaccinated and above 65, 0.2% of those vaccinated died during the 3-week period since about 200 among 100000 vaccinated. This is to be compared to the 4.91 deaths among 100000 dying from COVID-19 without vaccination, see below. This should not be compared to the 0.279 COVID-19 deaths among 100000 reported for those who completed the vaccination, meaning 2 weeks after the second dose, see below table from the Ynet

## נפטרים מקורונה

מחוסנים לחלוטין (שיעור ל-100 אלף איש)	לא מחוסנים (שיעור ל-100 אלף איש)	גיל
אין	0.01	15-44
0.0196	0.19	45-65
0.279	4.91	65+

Age Group	Vaccination complete per 100000	Efficiency
15-44	None	-
45-65	0.0196	89.7%
65+	0.279	94.3%

also extends to those below 65, among which, for the 5 weeks during the on process 0.05%, meaning 50 among 100000, died. This is to be compared to 10 dying from COVID-19 and that are not vaccinated in that age group, as per the death rate of this age group increased by 260 during this 5-week period of process, as compared to their natural COVID-19 death rate.

Does these points across relate to the monthly COVID-19 deaths rates since the beginning and until mid-December, 3014 deaths, hence  $3014/9 = 334.9$  deaths per month since mid-December are  $2337/2 = 1168.5$  deaths per month, hence 3.5

the Pfizer vaccines, for the elderly, killed during the 5-week vaccination period more people than the disease itself would have killed, and about 260 times more disease among the younger age class. We stress that this is in order to produce a profit at most 6 months, and promote Pfizer sales.

Numbers of deaths from the vaccine are probably much lower than actual numbers only for those defined as COVID-19 deaths for that short time period and VC and cardiac (and other) events resulting from the inflammatory reactions implemented on the NAKIM site, which themselves are only the iceberg's tip, see

document for long-term complications described in a criminal complaint filed in France and which was translated to english, [see here](#).

document explains why the serious COVID-19 cases increased as vaccination started, and to decline when vaccination was opened to the young and continue to decline as the national campaign is losing its momentum.

massacre will not include those below 13, as these have an increased adverse reaction and death, to vaccines as shown by multi-decennial data from the VAERS

document. The decrease in the pandemic may be predicted for the coming weeks. The decrease in the vaccination age will cause a decrease in serious cases, mainly not because of the vaccine, but because fewer people will die from the vaccine and other reactions.

document. In a few months we expect to face mid- and long-term adverse effects of ADE (Antibody-dependent Enhancement) and the vaccination-resistant mutants

ocines. But this should occur after the soon coming elections and the (survivor) another opportunity to express their disappointment at the voting poll.

é Seligmann for his huge support on data analysis.

ר Yativ, ingénieur, et du docteur Hervé Seligmann, de l'unité de recherche sur les zoonoses et tropicales émergentes de la faculté de médecine de l'université d'Aix-Marseille. Yativ et le Dr Seligmann ont analysé les données vaccinales d'Israël dans un article publié sur le site Nakim.org.

FranceSoir et l'association Bon Sens sont très attachés aux publications, scientifiques, du retour d'expérience des divers pays sur la vaccination, et se sont intéressés à ce sujet. Nous avons demandé à les interviewer afin de comprendre leur analyse et leurs conclusions.

Les auteurs de l'article déclarent n'avoir aucun conflit ou lien d'intérêt, autre que celui d'avoir des enfants.

Le journaliste Ynet, qui, après une présentation, évoque leur analyse des données, les chiffres de mortalité, les limitations et surtout les conclusions qu'ils demandent à confronter aux données officielles via une requête au ministère de la Santé, par le biais de l'équivalent de la loi d'accès aux documents administratifs) israélienne.

Les conclusions sont simples :

1. L'écart entre les données publiées par les autorités et la réalité sur le terrain.

2. Le manque d'information, outre les emails et messages d'effets secondaires qu'ils reçoivent via les réseaux sociaux et les sites d'internet.

3. Le manque de données : Ynet, site d'information israélien, la base de données du ministère de la Santé, la base aux Etats-Unis du VAERS (effets secondaires).

4. Il n'y a que 3000 enregistrements d'effets secondaires des vaccins dont 2900 pour les enfants.

5. Pendant ces trois années, la mortalité est 40 fois supérieure.

6. L'article de Ynet, présente des données liées à la vaccination. Les auteurs de l'article déclarent que "cette analyse, en se basant sur les données publiées par Ynet.

7. En analysant les données en regardant la mortalité pendant la période de la vaccination qui dure 5 semaines, en analysant ces données, on arrive à des chiffres effarants qui donnent une mortalité de 40 fois supérieure à celle de la grippe. »

8. Les auteurs déclarent « que les vaccinations ont causé plus de décès que le coronavirus n'en a causés pendant la même période. »

9. Les auteurs déclarent que pour eux « ceci est une nouvelle Shoah » devant la situation des données israéliennes pour vacciner les citoyens.

s spécialistes à venir compléter leurs analyses, et entendent donner des suites  
découverte, si elle venait à être validée par les données du ministère : contacté,

 76 malades dans un état grave qui a ensuite décliné et qui ne représente en rien

on les 68 malades graves en date du 19.12.2020 date du début de la vaccination  
solument pas un signe de début de pic d'autant que c'est moins que le 19 juillet  
s étions en plein hiver.

ée fulgurante de la mortalité immédiatement après le début de la vaccination  
concernant la toxicité du "vaccin" de Pfizer.

mprend rien aux chiffres manifestement, continue comme suit  
le, il s'intéresse donc à lier l'augmentation des morts par le vaccin, qui induirait  
n autre truc idiot comme ça). Il aurait tué 40 fois plus dans la même période que  
ême.

lent ça ? Facile on prend une période avec moins de morts (tous les mois de  
t décembre), qu'on compare au mois le plus meurtrier de la pandémie en Israël  
méthodologie...).

passe de 3,5 fois à 40 fois on sait pas trop comment – 40 fois ça voudrait dire  
en un mois à comparer avec la mortalité totale en Israël qui est de 45 000  
importe quoi donc)"

isque nous avons comparés les chiffres de mortalité a rien d'autre qu'au tableau

Ynet, sur lequel ils se sont basé pour démontrer l'efficacité du vaccin de Pfizer que ce tableau parlait de comparaison sur 5 semaines.

es élucubrations en disant pas moins:

*ment totalement débile d'utiliser VAERS pour les cas en israël (pas la même, comorbidité...) ni les mêmes façon de vacciner selon les pays, ni les mêmes*

lutôt "débile" de ne pas comprendre qu' a été l'usage que nous avons fait des données américaines nous ont été utiles pour déterminer le rapport de la ages du vaccin de Pfizer. Cette donnée n'est pas dépendante d'un pays uts a de nouveau prouvé qu'il n'aurait jamais réussi les examens pour être , ne parlons pas d'y obtenir un diplôme.

ts qui a la technique du matraquage d'inepties pour fatiguer ses lecteurs afin au grand tableau de Ynet avec les données.

*as 636 morts au total, mais surtout on voit que la grande majorité intervient dans la première dose. Cela prouve donc l'efficacité du vaccin (qu'il ne veut pas voir) uoi ? Que le vaccin a tué 646 personnes et mis à l'hôpital 865 ! n qui pour lui montre que c'est dû au vaccin pour l'hôpital"*

mprend absolument rien a la mortalité du covid voit dans le fait que les morts 3 jours suivant la première dose la preuve de l'efficacité du vaccin, grave erreur 3 prouve les rapports du Vaers sur le vaccin de Pfizer les morts tombent en 4 jours suivant le vaccin.

a mortalité normale de gens testés positifs au Covid est bien inférieur a 1% cela le plus de 80 ans, alors que dans le tableau sur lequel vous aussi vous vous er les mérites de Pfizer la mortalité globale est de 1.5 pourcent (660 pour 43871) écrit durant l'interview les gens de plus de 80 ans qui représente 37% de la en Israël n'y figurait pratiquement pas car vaccinés des la fin décembre et que le u 10 février. De plus les 1251 malades graves ou critiques du tableau et qui font l'échantillon de 43871 vaccinés vont eux aussi malheureusement fournir leurs mortalité supérieur a 20% d'entre eux. cela nous amenant a une mortalité des 43871 vaccinés soit au minimum 3 fois supérieur a celle de gens non es + de 80 ans alors que le tableau de Ynet ne les incluait pas.

ait abstraction des morts subites (cardiaques, AVC) suite au "vaccin" de Pfizer nptabilisées comme des décès Covid.

rouille, Mr Kouts nous ramène au début de la video sur le VAERS et nous dis: *le soir ils comparent les morts vaccins covid en janvier 2021 VS tous les autres 2020 - les 2 sans aucune base et source - enfin c'est pas clair et ils sont pas )"*

upplémentaires que voila, alors que nous parlions du Vaers pour signifier e décès rapportés en Janvier 2021 aux états unis pendant la vaccination 456 décès sur 3000 rapports comparés a seulement 14 décès en Janvier 2020 ilaires de rapports concernant des vaccins classiques.

Kouts fait parti des innombrables Troll que je côtoie sur facebook diffusant de la vu du nombre de Tweet mensonger de ce monsieur il me semble qu'il était clouer le bec.

aisse debunker les innombrables fautes d'orthographe et de ponctuation de ma

Cliche débunké ou Le Soleil ouuuust a l'ombre : נושא ההודעה: 19:04 05.03.21 שיש: פורסם: חיים יטיב דובר של נקים`

che débunké ou "Le Soleil" ouuuust a l'ombre

le débunkage de nakim.org et cette fois de Mr Soleil. (son article est lus bas en PDF au cas ou...)

is avec Mr Kouts plus haut quand il s'agit de santé publique je suis sans ail désolé pour ce qui va suivre.

tout de suite car j'étais occupé et grand bien m'en a pris car l'article de Mr ici devinez par qui ? par MSN network oui !!! le réseau de Microsoft celui : S du coup d'une pierre deux coups !

ipé a débunker ici l'article pseudo-scientifique du New England Journal of concitoyens Israéliens ventant les qualités du « vaccin » Coco-vide de oui ceux la même qui avouent toucher des subventions de Pfizer pour eux » services a la science. Donc après avoir démontrer avec le Dr ur papier scientifique et aussi neutre et fiable qu'une pub de Pfizer nous sser a Mr Soleil qui a lui aussi tenter de nous « éclairer » sur les mérites RN expérimentale de Pfizer (désolé de ne pas l'appeler vaccin mais notez tenu par respect pour vous d'écrire poison ).

nce mal en traitant Nakim de « site avec des contenus à forte teneur » Mr Soleil qui détient la vérité première qui lui a probablement été | Gates en personne a appris l'hébreu et le droit israélien en deux temps

הצטרף: 23 ינו' 2006 הודעות: 935

et s'est également spécialisé sur le sujet de la corruption en Israël et du nullement égalé s'est déjà permis de jauger les actions juridiques et à la cours suprême en Israël cités maintes fois par la presse israélienne et conspirationniste a deux balles... bon ok avec le Soleil on ne discute pas...

ssé le support c'est au tour des auteurs :

st, Haim Yativ, se présente comme un ingénieur » je ne me présente pas pour dommage de ne pas avoir lu avant ma réponse a votre collègue Ari énieur et diplômé de pas n'importe quelle école un ptit coup d'œil au ts votre altesse...

ymann il n'est pas un médecin distribuant des médicaments comme le mais c'est un biologiste chercheur ayant publié plus de 100 articles ayant travaillé des années chez le Prof Raoult, bref a la pointe dans le

donc bien lancé avec ses inepties et nous raconte des « histoires de ge » :

nt, c'est qu'il compare des pommes avec des oranges : le nombre de état grave est un «instantané» qui ne concerne qu'une seule journée alors Ynet cumule des cas survenus sur une assez longue période (au moins oire plus). Pour s'en faire une idée, on n'a qu'à songer au fait que le ait état de 660 décès alors que la COVID-19 tue environ 35 personnes par ois. On ne peut donc absolument rien tirer d'une telle comparaison. »

qui l'arrange a apparemment omis dans l'article la phrase :

we need first to understand that the provided table describes the state of s that got the first or the second vaccine dose at given dates, as started in rges from the data that among 856 patients above 60 years in serious l at this time..." we assume that the article published February 11 reflects ospitals the previous day, hence February 10 2021, or February 11 2021."

écrit donc clairement le nombre de gens hospitalisés a la date de l'article comme le prétend Mr Soleil, en cas de doute Mr Soleil qui comprend si me dit plus haut aurais pu se pencher sur la version israélienne qui est » est en hébreu a l'instant présent.

de décès il est bien évidemment accumulé comme nous l'avons bien le.

le lui Mr Soleil s'arme de chiffre de la banque mondiale pas moins (dis moi e te dirais qui tu es...) pour nous dire que la mortalité de 0.05% pour 5 aine plus élevé que la mortalité attendue de 0.048%

oublie notre prétendu critique scientifique c'est notre phrase: " This death y to a relatively young population whose vaccination stated on January 19, hich most vaccinated were below 65."

c pourquoi ce chiffre de mortalité est excessif puisque la part du lion de la l comme dans tout autre pays est compose des gens de plus de 65 ans et

iellement la mortalité de 0.5% par an ramenée par Mr Soleil est la mortalité se confondue incluant suicide accident de voiture cancers, attaque a, alors que l'année passée la part du Covid dans cette mortalité était de %. Tant et si bien qu'une mortalité que de Covid qui dépasse la mortalité le sur cette période de 5 semaine et cela pour une écrasante majorité de

65 ans cela est une CATASTROPHE.

avec ses élucubrations sous le titre « –la pire vague » expliquant que la mortalité en décembre a février est juste causée par la monte des cas Covid. Sur la lumière émanant du cerveau de Mr Soleil, nous avons débunké l'anglais Journal Of Médecine et au passage nous avons glané la preuve de nos propres données. La première injection de Pfizer multiplie par 3 les cas Covid chez les vaccinés. Maintenant que je vous ai mis a l'ombre Mr Soleil vite a lire [notre article](#), puisque faute d'emploi vous aurez tout le temps de regrettes d'avoir encouragé les gens a se faire vacciner avec ce produit plus

mal et votre verdict vous savez maintenant quoi en faire au vu de [notre](#)

[lien](#) sur lequel le ministère de la santé israélienne et vous-même vous vous

ne [n'ont](#) ajouté pas votre collègue de MSN [démonté](#) dans sa langue, plus bas

government data confirm Covid-19 vaccine risk: infections INCREASE in fortnight

BOOK  
TER

Concern about the safety of Covid-19 vaccines faces derision as an 'anti-vaxxer', activists are those who refuse to hear evidence that something is going badly wrong with experimental intervention. Now a Public Health England <https://www.gov.uk/new-data-show-vaccines-reduce-severe-covid-19-in-older-adults>

that infections increase during the fortnight after vaccination

The programme began in earnest in January, worrying signs came from care homes, where the initial target population of people aged over 80 reside. At Pemberley House in London, 10% of the residents (24) died of Covid-19 in a home that had previously been free of the virus. Similar reports emerged from Germany

Worries came from small countries that strove to vaccinate their entire adult population. The British enclave of Gibraltar was supplied with the Pfizer vaccine on 16th January and the residents were swiftly jabbed. Suddenly this tiny state, home to 33 thousand, had the worst death rate in the world (now 2761 per million). From merely 9 deaths in December, now 27 have died. The health minister angrily denied claims that the vaccine was killing people but eventually admitted that some deaths had occurred in recipients

The United Arab Emirates received large batches of the Chinese Sinopharm vaccine as well as the Pfizer vaccine in December. As stated by Amer Sharif, head of the Covid-19 Command & Control Centre, the UAE aimed to be the first country in the world to achieve 100% vaccination of its population. An increase in deaths was attributed to mutant strains, but as in other countries the increase was concentrated in the vaccinated age band. On 10th February a new daily high of 18 deaths from coronavirus was recorded, and the trend has continued. Considerably more people

he first wave last spring – despite the hubristic inoculation

atrogenic harm came from Israel, which started vaccinating on 19th December. New York Times journalist Alex Berenson, while Covid-19 mortality in Israelis throughout January, in Palestine it declined steeply after a surge in January. Palestinians had no vaccine

more than coincidental. Analysis [http://www.nakim.org/israel-forums/viewtopic.php?t=270812&s=The\\_uncovering\\_data\\_in\\_Israel\\_reveals\\_a\\_frightening\\_picture](http://www.nakim.org/israel-forums/viewtopic.php?t=270812&s=The_uncovering_data_in_Israel_reveals_a_frightening_picture)

Ministry data by Hervé Seligmann at Aix-Marseilles University indicates that about 1000 people died of Covid-19 in the three weeks between their first and second vaccination, compared to 100 for those who were not vaccinated. Sacrificial lambs? Deaths in Israel are now being attributed to the vaccine, although there is a global trend of the vaccine being deadly

Vaccination has a temporal pattern that varies between countries, apparently related to when vaccination started. Jordan was supplied with 3800 tons of Sinopharm on 9th March for 'emergency use'. The King of Jordan and other prominent figures were seen receiving the vaccine, to encourage the people to follow. A deal was also struck for 10 million doses of the Pfizer product. At this time nearly four thousand had died of

the disease. In January half a million had been jabbed, but this was slow progress in a land of ten million people. As coronavirus cases had surged, as had deaths. A night curfew was imposed. Yet the vaccine was being given to those in the age group prioritised for the vaccine; many would have had the vaccine before the disease was circulating. Yesterday another 37 died, and the death toll is now over 1000. Perhaps that explains hesitancy in the Hashemite kingdom

It is expected that Covid-19 vaccines have deleterious as well as intended effects. A study showed significant lymphocyte depletion in the first week after vaccination. June Raine, Director of Medicines regulator MHRA, acknowledged that 'a week or two' is needed to build up the immune system

An England study, which was hailed by health secretary Matt Hancock for the decrease in hospitalisations, actually showed a 48% rise in infections after the first Astra Zeneca vaccines. The authors, however, blamed this on a higher risk of infection. Sarah Harcourt, head of immunisations at PHE, stated that 'this adds to growing evidence that the vaccines are working to reduce infections and save lives'. She glossed over the hundreds of people who died during the trial

What is happening. Vulnerable people who unknowingly had Covid-19 or whose immune systems were being kept at bay, succumbed to the disease after the vaccine lowered their immunity. The disease struck hard, leading to severe symptoms, cytokine storm and pneumonia. It is possible that previously shielding persons were cross-infected by the vaccinators

The lack of transparency and scrutiny, not reckless denial by those who are meant to protect us. This is the result of government censorship. The thalidomide scandal arose. The authorities have covered up everything we have learned about ethical safeguards in clinical and medical research. Perhaps it is relevant that the British medicine regulator is heavily funded by the Bill and Melinda Gates Foundation

Are we raising the alert? In medical training, hardly a day is given to learning about the history of medicine. Pharma has undue influence on this noble profession. With critical thinking and vigilance, the Covid regime, most doctors are mere conformists. We must appeal to the

o continue their efforts to expose the deadly hazard of this highly dubious

[network.co.uk/british-and-israeli-government-data-confirm-covid-19-vaccine-risk-infections-increase-in-fortnight-after-jab](http://network.co.uk/british-and-israeli-government-data-confirm-covid-19-vaccine-risk-infections-increase-in-fortnight-after-jab)

## חשיפה בלעדית של "נקים": ההונאה במיליארדים של הקיבוצים בשיתוף רשם הא

an-François Cliche, taking the sun/Soleil : נושא ההודעה: 2:33 06.03.21 שבת :פורסם:  
straight to the shadow

חיים יטיב  
דובר של 'נקים'  

### Jean-François Cliche and taking the sun/LeSoleil straight to the shadow

try for nakim.org , and this time from Mr Soleil/Sun (Jean-François Cliche).  
attached below in PDF in case Mr Soleil and Bill Gates' MSN/Dan  
act...) As I wrote with Mr. Kouts above when it comes to public health I am  
Soleil sorry for what follows.

הצטרף: 23 ינו' 2006  
הודעות: 935

t away because I was busy and it was very good for me because Mr.  
s picked up, guess by whom? by MSN network yes !!! !!! the Microsoft  
I L L G A T E S!!! with one stone two birds!

ouncing here the pseudo-scientific article of the New England Journal of  
allow Israelis touting the qualities of Pfizer's Coco-vid "vaccine", yes yes  
admit receiving grants from Pfizer for their "good and loyal" service to

emonstrated with Dr Seligmann that their scientific paper is as neutral and  
r ad, we can finally move on to Mr Soleil who also tried to "enlighten" us  
he experimental RNA injection from Pfizer (sorry not to call it a vaccine but  
spect for you I refrained from writing poison).

adly by treating Nakim as a "site with high conspiracy content" Mr. Soleil  
mary truth which was probably transmitted to him by Bill Gates in person  
nd Israeli law in two days and has also specialized in the subject of  
el and from the height of his unparalleled genius has already taken the  
the legal and other actions of NAKIM at the Supreme Court in Israel cited  
e Israeli press and to treat us as a double-barreled conspirator ... well, ok  
don't argue ...

medium, it's the authors' turn: "The author of the post, Haim Yativ,  
as an engineer" I do not present myself as an engineer too bad not to have  
answer to your colleague Ari Kouts, I am an engineer and a graduate of not

ut the Technion, a little glance above at my [Kouts debunking your](#)

inn, he is not a doctor distributing drugs as Mr Soleil conceives, but he is a  
t who has published more than 100 scientific articles and who worked for  
idier Raoult, in short at the cutting edge in the field.

re continues well with his ineptitude and tells us "stories of apple and  
blem, however, is that he compares apples with oranges: the number of  
s condition is a 'snapshot' which concerns only one day while the Ynet  
s cases that have occurred over a fairly long period (at least two weeks, or  
get an idea, one only has to think of the fact that the Ynet table shows 660  
.19 has killed around 35 people a day for the past month. So absolutely  
awn from such a comparison. "

ads what suits him, apparently omitted from the article the sentence: "For  
eed first to understand that the provided table describes the state of  
s that got the first or the second vaccine dose at given dates, as started in  
rges from the data that among 856 patients above 60 years in serious  
l at this time... "we assume that the article published February 11 reflects  
ospitals the previous day, hence February 10 2021, or February 11 2021."

re clearly describes the number of people hospitalized at the date of the  
cumulated as claimed by Mr. Soleil, in case of doubt Mr. Soleil who  
rew so well as said above could have looked into the Israeli version which  
"kaet" is in Hebrew at this day.  
r of deaths, it is obviously accumulated as we have described in the

elf, Mr Soleil is armed with data from the World Bank no less (tell me who  
uld tell you who you are ...) to tell us that the mortality of 0.05% for 5  
igher than the expected mortality of 0.048% The parameter that our alleged  
rgets is our sentence: "This death rate relates mainly to a relatively young  
vaccination stated on January 19, a period during which most vaccinated  
io that explains why this death figure is excessive since the lion's share of  
as in any other country is made up of people over 65 and not the other

essentially the mortality of 0.5% per year reported by Mr Soleil is the overall  
causes including suicide, car accident, cancer, heart attack and other,  
e share of Covid in this mortality was far less than 10%.  
a mortality from Covid which exceeds the usual general mortality over this  
and that for an overwhelming majority of people under the age of 65 this  
HE.

es with his rantings under the title "- the worst wave" explaining that the  
lity in December to February is just caused by the rise in Covid cases.  
ight emanating from Mr. Sun's brain, we debunked the New England  
ine article and in the process gleaned evidence for our claims from their  
st injection of Pfizer multiplies by 3 the number of Covid patients among

ut you in the shade Mr Soleil, I invite you to read [our article](#), since for lack  
ou will have all the time to think about your acts of having encouraged  
inated with this product more that worrying.

final and your verdict Mr Jean-François Cliché aka Mr Soleil, you now

with it given our debunking of the scientific article you, Bill Gates' MSN, and the Israeli Ministry of Health rely on.

peer Dan Satherley who wrote in addition to your false claims:

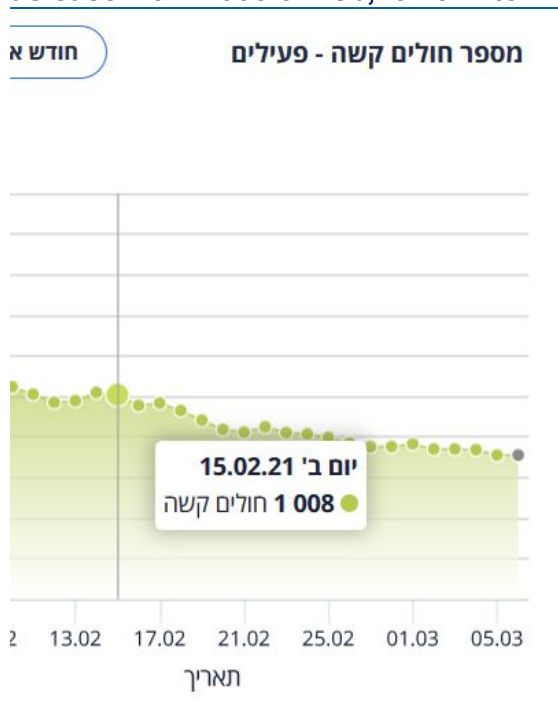

the post is that deaths from COVID-19 in Israel are now slowing because the campaign is "losing its momentum". This is demonstrably false - since mid-February the number of people dying from COVID-19 each day has more than halved, while the number of doses administered in Israel has continued its upward trend over the past two months, with no signs of slowing down."

as well as specialized in disinformation since we wrote in Feb 15, 2021: Mass vaccinations and in vaccination age will cause a decrease in serious

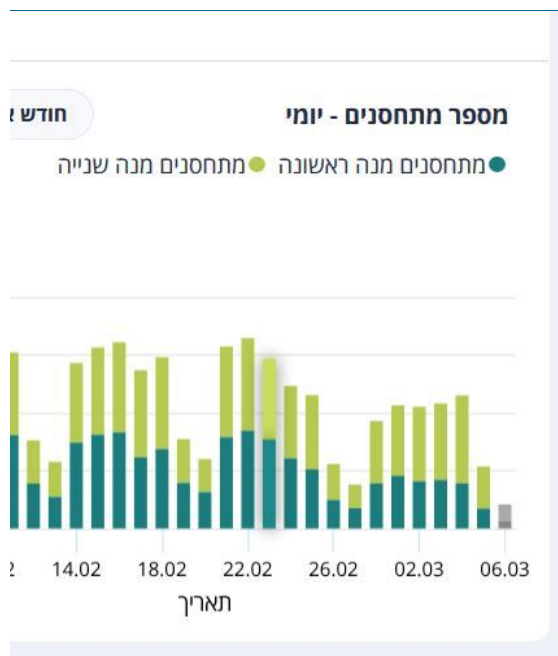

cases as they start getting down because from mid-January the 65 and below started receiving the Pfizer RNA experimental product.

So what happens since our article in Israel we can see that there was a 30% decrease in the number of cases of COVID-19 that match the decrease of the first shot vaccination

from 1008 cases on Feb 15, 2021 to 710 cases on March 6, 2021

decrease in vaccination on last 3 weeks  
the first shot

**Soleil/Jean-François Cliche+Msn/Dan Satherley=Bill Gates=FAKE NEWS  
le to take the shot.**
